Peter Yarwood Limited is one of the largest independent hirers of plant attachments in the UK and has been established for over 30 years.

We provide a nationwide service and from our branches in Airdrie and Barnsley we supply attachments to industries such as Plant Hire, Civil Engineering, Rail, Quarrying and Forestry to name but a few.

Service and reliability is our trademark. Our fully qualified plant engineers will turn up on time and will not leave the site until our attachments are fitted and operational and the customer is entirely satisfied – It goes without saying that the quality of our products is second to none.

We know poor service costs you money

Please contact any of our Depots listed below for further details on any of the products or to arrange an appointment with a member our Sales Team.

SALES | HIRE | FABRICATION | MAINTENANCE | REPAIR

TOKU HAMMERS

- Used as an attachment for breaking concrete, rock and asphalt
- Suitable for excavators from 1t - 70t and backhoe loaders
- Super silent hence suitable for use in residential areas
- Reliable and durable
- Japanese engineering

RIDDLE BUCKETS

POWERED & MANUAL

- Used to separate brick, concrete or stone from soil
- Separates rock or concrete prior to crushing
- Ideal for recycling
- Available for manual or hydraulic application
- Suitable for excavators from 10 - 30t

CRUSHER BUCKETS

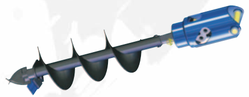
- Recycles on-site waste by hydraulically crushing material
- Negates need to transport waste from site saving on fuel and labour costs
- Suitable for excavators from 10 - 70t
- Entire process completed with one operator
- Environmentally friendly

COMPACTOR PLATE

- Used for hollow, soil or slope compaction
- For compacting hardcore, tar or asphalt
- Less noise pollution than a manual compactor
- Safer for operator as reduced vibration

AUGERS

- Used for creating round holes for round posts
- Suitable for all sizes of excavator
- Environmentally friendly – no overdig
- Instant holes from 150mm – 1000mm dia



MULTI-PROCESSOR

- The ideal tool for demolition operations
- Depending on the type of mounted jaws the tool can be used for primary and secondary demolition
- One attachment – different applications!

ALLU SCREENING BUCKET

- Screening demolition waste
- Crushing brick and asphalt
- Crushing glass
- Excavators from 20 – 35t

RIPPER TOOTH

- For ripping ground prior to excavating which reduces stress on the excavator and the bucket
- Usage will speed up cycle times
- Extracts cumbersome material including tree stumps
- Suitable for excavators from 10t – 35t
- Fitted with reinforced tip

VIBRO RIPPER

- A unique machine designed and produced to increase mining productivity
- Powered by modern hydraulics
- It has the power of modern diesel engines to fracture the rock face and excavate the rock by ripping the strata

CLAM SHELLS

- Used for accurate vertical digging or trenching
- Used in rail and civil engineering
- Suitable for excavators from 10t – 30t
- Reinforced cutting teeth for high strength
- Multiple shells or extensions available

3X2 GRAB

Used for re-handling, sorting, or demolition of materials for loading and placing rocks and other difficult materials

SELECTOR GRAB

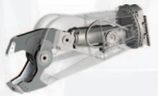
- Ideal for sorting demolition materials and recycling
- Accurate placement or collection of materials
- Fully hydraulic rotation

CONCRETE PULVERISER

- Separates rebar from concrete
- Fixed and 360deg available
- Huge crushing power

STEEL SHEARS

- For stripping out bulk steel
- High output
- 360deg continuous rotation



PALLET FORKS

- Gives excavator capability of a transporter
- 2.5 tonnes lift capacity
- Optional fork lengths
- Perfect for use on a construction site

MAGNET

- Built-in Generator
- Fast Clean Lift
- Suitable for Construction and Demolition
- Hydraulic drive from hammer line

RAKE

- Used to separate debris from soil
- Lifts objects while leaving soil behind
- Breaks up hard compacted topsoil
- Excellent for land clearing
- Available in a variety of teeth widths

YARWOODS WORKSHOP

Facilities are always ready to repair most types of attachments

YARWOODS SALES

Ready to serve you with our extensive range of new & used attachments

YARWOODS BUCKET SHOP

Manufactures and Repairs quality excavator buckets
